Professional Summary

Detail-oriented Fullstack Web Developer and certified UI/UX Designer with strong experience building scalable, user-centered web applications from concept to deployment. Proficient across modern frontend and backend technologies including React, Next.js, Node.js, and TypeScript, with a solid design foundation that ensures intuitive, accessible, and visually polished products.

Experienced in translating business requirements into functional systems, integrating third-party APIs, and delivering responsive interfaces backed by robust server-side logic. Passionate about solving real-world problems through clean code, thoughtful design, and continuous learning.
